## Projects

### Google Gemini Website Clone

- Developed a clone of the Google Gemini platform, leveraging the Google Gemini API to fetch and display real-time data such as search results, news, and other relevant information.
- Utilized HTML, CSS, JavaScript, and React.js to recreate the layout and design of the Gemini website, ensuring responsiveness and cross-browser compatibility.
- Implemented API integration to fetch and display dynamic content, providing users with up-to-date information.
- Achieved a high level of fidelity to the original design, maintaining a consistent user experience across different devices and browsers.
- Project URL: <https://hdgeminiclone.netlify.app/>

### Fitness Mind - Personalized Fitness Solution

- Developed Fitness Mind, a personalized fitness solution offering tailored programs and training options to empower users in achieving their fitness goals.
- Implemented features for user sign-up, selection of certified trainers, progress tracking, and prioritization of well-being using HTML, CSS, JavaScript, React.js, and React Router Dom.
- Ensured responsiveness and seamless user experience across devices by utilizing responsive design principles and React Router Dom for navigation.
- Contributed to the front-end development as a Front-end Developer, focusing on UI/UX design, functionality implementation, and integration of fitness tracking features.
- Project URL: <https://fitness-mind.netlify.app/>

### GlamHue - Your Beauty Destination

- Developed GlamHue, a user-friendly platform for shopping makeup products aimed at enhancing natural beauty and providing an enjoyable shopping experience.
- Implemented technologies including React.js, Framer Motion, React-compare-image, and react-owl-carousel to enhance user interaction and visual appeal.
- Successfully launched GlamHue, ensuring cross-browser compatibility and responsive design to cater to a diverse user base.
- Achieved a seamless shopping experience by integrating features like product comparison and interactive carousels, enhancing user engagement and satisfaction.
- Project URL: <https://glamhue.netlify.app/>

## Certificates

### Certification of Excellence in JavaScript

Scalar Academy

Certificate URL: <https://moonshot.scaler.com/s/li/4tkIPcSV3X>
